

## SKILLS

JavaScript / Python / React / Redux / HTML / CSS / Node.js / Express.js / SQL / PostgreSQL / Git / Heroku

## PROJECTS

Handfrazee (*Python/Flask, FlaskWTF/WTFForms, SQLAlchemy, Docker, Javascript, React*)

[live](#) | [github](#)

Handspeak clone that provides standard American Sign Language phrases promoting visibility for non-ASL users.

- Utilized Flask-WTFForms validators from the backend and Auth Routes in the frontend to prevent users from submitting a video URL that is not embedded.
- Designed application to promote American Sign Language, allowing full CRUD with 30+ current available phrases.
- Ensured user privacy through frontend and backend FlaskWTFForms validators to only allow users with permissions to access.

Pixelnote (*React/Redux, Javascript, Express, PostgreSQL, CSS*)

[live](#) | [github](#)

Evernote clone stylized in homage to the 8-bit video game design.

- Applied customized 8-bit UX design for users to navigate through with React.
- Implemented thunk action creators to properly dispatch CRUD operations while coordinating with the backend to pass in proper variables.
- Integrated PostgreSQL by seeding data, creating tables, and databases for initial use of the application.

Potionable (*Python/Flask, Javascript, React/Redux, SQLAlchemy, CSS, PostgreSQL*)

[live](#) | [github](#)

Instructables fantasy theme clone.

- Coordinated with a strong team of 3 total individuals in an agile environment to optimize time spent on specific tasks needed to be done within a 2-week sprint.
- Created dynamic changes made available throughout the site when editing specific items that do not require a reload using React state.
- Utilized numerous React components to ensure specific sections on the page were properly used and customized if functions are needed to be changed.

Do I Need It (*Javascript, Pug, CSS, Express, Sequelize, BCryptJS*)

[live](#) | [github](#)

Remember the Milk clone providing lists for users to create for their day-to-day tasks.

- Incorporated frontend styling with Pug, dynamically changing features for CRUD elements.
- Backend routes authentication with Javascript and BCryptJS to ensure user privacy from other accounts.
- Utilized search feature for available lists with redux to provide smooth navigation for the user.

## EXPERIENCE

### Front Desk Agent

*Embassy Suites Magnificent Mile*

Oct 2019 - May 2020

- Ensured superior customer experience by addressing customer concerns, demonstrating empathy to resolve issues quickly and efficiently.
- Utilized the OnQ property management system throughout the hotel to finalize payments or reimburse customers when needed.
- Verified personal and payment information on guest accounts were accurate and complete while upselling guest rooms as an incentive resulting in an extra \$1500 per month for hotel revenue.

### Supervisor / Night Auditor / Front Desk Agent

*Doubletree by Hilton Hotel Chicago*

Sept 2017 - Mar 2019

- Processed data overnight from the current business day to ensure hotel systems are maintained and up to date the next morning.
- Prepared business, wedding, and celebratory events, guiding guests to the proper destination.
- Performed team lead tasks, writing reports to administration as reports recording the outcome for the current

business day.

## EDUCATION

Wilbur Wright College - *Associate in Arts* , 2014-2017

Roosevelt University - Bachelor's Degree, Hospitality Administration/Management, 2018-2020

AppAcademy - 1000-hour immersive full-stack web development intensive with <3% acceptance rate.
