

**SKILLS** JavaScript / Python / React / Redux / HTML / CSS / Node.js / Express.js / SQL / PostgreSQL / Git / Heroku

## PROJECTS

Handfraise (*Python/Flask, FlaskWTF/WTFForms, SQLAlchemy, Docker, Javascript, React*) [live](#) | [github](#)

Handspeak clone that provides standard American Sign Language phrases promoting visibility for non-ASL users with 30+ available phrases.

- Utilized Flask-WTFForms validators from the backend and Auth Routes in the frontend to prevent users from submitting a video URL that is not embedded.
- Executed the use of useSelector hooks in React to make appropriate slices of the Redux store available to a particular component such as choosing a particular category and listing its specific items.
- Dispatched actions to the Redux store in order to update the global state and allow users to update their phrase.

Pixelnote (*React/Redux, Javascript, Express, PostgreSQL, CSS*) [live](#) | [github](#)

Evernote clone stylized in homage to the 8-bit video game design.

- Applied customized 8-bit UX by importing unique fonts and backgrounds in the frontend designed to navigate through the site eliminating any clutter that would confuse the user.
- Implemented thunk action creators to properly dispatch CRUD operations while coordinating with the backend to pass in proper variables.
- Integrated PostgreSQL by seeding data, creating tables, and databases for initial use of the application.

Potionable (*Python/Flask, Javascript, React/Redux, SQLAlchemy, CSS, PostgreSQL*) [live](#) | [github](#)

Instructables fantasy theme clone.

- Coordinated with a strong team of 3 total individuals in an agile environment to optimize time spent on specific tasks needed to be done within a 2-week sprint.
- Created custom React structured modals for seamless navigation that does not require load times for users on account login, sign up, and deleting items.
- Utilized the useEffect Hook in React in order to fetch data from the backend and populate local state such as editing the user's comment or project dynamically.

## EXPERIENCE

Front Desk Agent

*Embassy Suites Magnificent Mile*

Oct 2019 - May 2020

- Ensured superior customer experience by addressing customer concerns, demonstrating empathy to resolve issues quickly and efficiently.
- Utilized the OnQ property management system throughout the hotel to finalize payments or reimburse customers.
- Verified personal and payment information on guest accounts were accurate and complete while upselling guest rooms as an incentive resulting in an extra \$1500 per month for hotel revenue.

Supervisor / Night Auditor / Front Desk Agent

*Doubletree by Hilton Hotel Chicago*

Sept 2017 - Mar 2019

- Processed data overnight from the current business day to ensure hotel systems are maintained and up to date the next morning.
- Prepared business, wedding, and celebratory events, guiding guests to the proper destination.
- Performed team lead tasks, writing reports to administration as reports recording the outcome for the current business day.

## EDUCATION

AppAcademy - 1000-hour immersive full-stack web development intensive with <3% acceptance rate.

Roosevelt University - Bachelor's Degree, Hospitality Administration/Management, 2018-2020

Wilbur Wright College - Associate in Arts, 2014-2017
